HILLCREST WATER AND SANITATION DISTRICT

2021 Budget Message

Introduction

The Hillcrest Water and Sanitation District (“the District”) provide water and sanitary sewer services and facilities to the residences of the District. The Denver Board of Water Commissioners (“Denver”) provides potable water and fire protection water under a total service agreement between Denver and the District.

The District provides the collection of sewage for its residences. The District has a contract with Metro Wastewater Reclamation District (Metro) for treatment and disposal of sewage. Such sewage is delivered to Metro in the vicinity of South University Boulevard and Flora Street, approximately two miles outside the District's boundaries. The District operates and maintains within its boundaries the sewage collection system; and in concert with two adjacent Districts maintains a two-mile long outfall line.

Basis of Accounting

The basis of accounting utilized in the preparation of the 2021 budget is the modified accrual method.

Budget Features

The District has a single Enterprise Fund into which all revenues are received and expenditures made.

Operating revenues are funded solely by service charges. Although the District has the statutory power to levy ad valorem taxes, it has chosen instead to assess service fees to property owners. The District's annual sewer service charge is \$620/year per residential home or single-family equivalent.

In 1994, the District entered into an agreement with two adjacent Districts using the 1.8-mile outfall line to participate in outfall operation, maintenance and replacements, thus reducing Hillcrest's future obligations for line repair. This agreement was amended in 2009.

The District does not impose a mill levy and does not collect property taxes.
